Facebook: <https://www.facebook.com/PirxThePilotFPV>

- * Color: Channel - every channel has an individually assigned color
- * OSD Stretch - adjusting the screen aspect ratio to goggles display
- * OSD only in menu - OSD display only when entering the menu
- * Set Channel For 5880 - frequency appears in the Fatshark band and Raceband, choose which should appear
- * Scan Mode - search for the exact frequency or the nearest channel
- * Fatshark Buttons - no support for Fatshark buttons when the OSD is running (only for Eachine pro58)
